

Gold-Vit senior

food supplement

Physical condition and vitality*

Gold-Vit® senior is a composition of vitamins and minerals specifically intended for older people, including in the form of highly absorbable Albion® amino acid chelates, supplementing the daily diet with essential micronutrients. The formula has been further enhanced with lutein and plant sterols, as well as standardized extract of Korean ginseng, which is conducive to maintaining the vitality and physical fitness of the body*.

The ingredients of the Gold-Vit® senior preparation comprehensively support the functioning of the body, including:

- vitamin D and calcium - essential for maintaining the proper condition of the bones and teeth,
- vitamin A helps to maintain proper vision,
- zinc, selenium and vitamin C, support the proper functioning of the immune system,
- magnesium* is important for the proper functioning of the nervous system and muscles, including the cardiac muscle, and similarly to vitamin B6*, it promotes vitality through its participation in the reduction of tiredness and fatigue of the body,
- vitamin B6, B12 and folic acid* are important for the proper metabolism of homocysteine and participate in the reduction of tiredness and fatigue of the body,
- iron supports the proper production of red blood cells and haemoglobin,
- plant sterols help maintain normal cholesterol levels in the blood (a beneficial effect is obtained when consumption is equal to at least 0,8 g of plant sterols per day).
- ginseng* (Panax ginseng) participates in maintaining vitality, improves concentration, coordination and alertness of the body, supports activities of the immune system and is beneficial to sexual health.

Lutein is a natural carotenoid that can be found in the macula of the eye, which, thanks to its structure, enables so-called central vision and is responsible for visual acuity.

The preparation includes chelated minerals produced by the market leader in pharmaceutical raw materials - the American company Albion®. These minerals are completely safe to use, do not irritate the stomach and do not hinder the absorption of other minerals.

Minerals in the form of Albion® amino acids chelates are completely hypoallergenic (US Patent No. 7,838,042), which is extremely important with regards to the safety of receiving the treatment.

Albion Gold Medallion, Albion®, Ferrochel®, Albical™ are trademarks belonging to ALBION Laboratories, Inc.

Composition

Nutrition information	1 tablet	% NRV**
Vitamin A (RE)	800 µg	100%
Vitamin D	10 µg	200%
Vitamin E (α-TE)	18 mg	150%
Vitamin C (z PureWay-C®)	100 mg	125%
Vitamin B1	1,1 mg	100%
Vitamin B2	1,4 mg	100%
Niacin (NE)	16 mg	100%
Vitamin B6	2,8 mg	200%
Folic acid	200 µg	100%
Vitamin B12	5 µg	200%
Biotin	50 µg	100%
Pantothenic acid	6 mg	100%

Korean ginseng extract (<i>Korean Panax ginseng</i>)	50 mg	-
Plant sterols	75 mg	-
Lutein (from <i>Tagetes erecta</i> L.)	3 mg	-
Calcium	120 mg	15%
Magnesium	75 mg	20%
