

Therm Line PRO

food supplement

Fat burning and regulating metabolism

Therm Line PRO is a unique combination of a probiotic strain in a "night capsule" and a combination of ingredients with thermogenic action in a "day tablet".

Do you need a strong support in reduction of body weight? Do you get the impression that your metabolism requires regulation? You should know that everyday stress and an improper diet may lead to disturbances of the intestinal flora, which has a negative effect on metabolism. Scientific literature increasingly recognises intestinal flora (microbiome) as an obesity-related factor. *Lactobacillus rhamnosus* GG is the most scientifically studied probiotic strain which supplements the intestinal flora. Proper intestinal flora will result in the fact that after consumption of a thermogenic formulation in the morning, it will be better metabolised, which will increase the effectiveness of its function. Fat metabolism is additionally supported with choline and bitter orange extract.

Green tea and capsaicin from cayenne pepper extract stimulate thermogenesis processes. Ginger facilitates digestion and chromium allows to maintain proper metabolism of macronutrients, i.a. carbohydrates and fats.

Read the package leaflet before use.

Composition

Nutritional information	2 tablets
Day tablet	
Vitacholine® including choline	412,6 mg 165 mg
Bitter orange extract including synephrine	300 mg 20 mg
Green tea extract (55% EGCG)	300 mg
Caffeine (from anhydrous caffeine)	240 mg
Ginger extract (5% gingerols)	120 mg
Cayenne pepper extract (8% capsaicin)	60 mg
Bioperine® black pepper extract (95% piperine)	5 mg
Chromium	120 µg (300%**)
Night capsule	2 capsules
Microencapsulated lactic acid bacteria Lactobacillus rhamnosus GG	4 mld (4x10 ⁹ CFU***)
Fructooligosaccharides (FOS)	60 mg

**NRV - Nutrient Reference Value.

*CFU - Colony Forming Unit.

Day tablet - ingredients: choline bitartrate (Vitacholine®) - choline, filling agent - microcrystalline cellulose; bitter orange extract (Citrus aurantium L.), green tea extract (Camellia sinensis L.), anhydrous caffeine, ginger extract (Zingiber officinale L.), glazing agents - polyvinyl alcohol (PVA), polyethylene glycol, talc, sodium aluminium silicate, polyoxyethylene sorbitan monooleate; filling agent - isomalt; cayenne pepper extract (Capsicum annum L.), filling agent - cross-linked sodium carboxymethylcellulose; anticaking agents - magnesium salts of fatty acids, silicon dioxide; black pepper extract (Piper nigrum L.), chromium (III) chloride, dye - E 171.

Night capsule - ingredients: maltodextrin, fructo-oligo-saccharide, microencapsulated Lactobacillus rhamnosus GG (ATCC 53103), anticaking agents - E 551, E 471; capsule (gelatin capsule, dye - E 171).

Purpose

This preparation is intended for: adults as a slimming preparation, people striving at reduction of

body weight and regulation of metabolism.

Note: The Therm Line Pro "Day tablet" contains caffeine, it is not recommended for children and pregnant women (caffeine content: 240 mg/2 tablets). Additionally, it is not recommended for breastfeeding women, persons with heart disease, hypertension and in the case of hypersensitivity to any of the ingredients of the preparation. Do not exceed the dose of 400 mg of caffeine daily from all sources. Diabetics who use anti-diabetic medication or insulin and immunocompromised patients should consult a doctor before using this product.

Recommendation

Recommended daily dose: Day tablet: 1 tablet 2 times a day, with plenty of water, about 30 minutes before breakfast and lunch or training. Do not take in the evening or at night. Night capsule: 2 capsules once a day before bedtime, with plenty of water. Use the preparation for 2 to 3 months and repeat the treatment after a 1-2 month break if needed.

Do not exceed the recommended dose per day.

Dietary supplements cannot be used as a substitute for a varied diet.

It is recommended that a balanced diet and healthy lifestyle should be maintained.

Note: The Therm Line Pro "Day tablet" contains caffeine, it is not recommended for children and pregnant women (caffeine content: 240 mg/2 tablets). Additionally, it is not recommended for breastfeeding women, persons with heart disease, hypertension and in the case of hypersensitivity to any of the ingredients of the preparation. Do not exceed the dose of 400 mg of caffeine daily from all sources. Diabetics who use anti-diabetic medication or insulin and immunocompromised patients should consult a doctor before using this product.
