

SlimWOW!

food supplement

Weight control

Fat reduction

Inhibition of fat synthesis and accumulation

SlimWOW!™ - A dietary supplement in capsule form, containing a unique composition of standardised plant extracts combined with caffeine and chromium, to constitute an option for people trying to lose weight. The components of the preparation* support body weight control, help regulate the metabolism and improve thermogenesis.

*Indian coleus extract standardised to 10% forskolin content supports body weight control and helps regulate metabolism and fat reduction. **Garcinia cambogia extract contains hydroxycitric acid (HCA), which inhibits fat synthesis and accumulation in the body. Cayenne pepper extract is a source of capsaicin, which supports thermogenesis. Caffeine helps increase alertness and improves concentration in the period of body weight reduction. Black pepper extract helps in nutrient absorption, improves digestive functions and increases the effectiveness of the other herbal ingredients. Chromium contributes to maintaining the normal metabolism of macro nutrients and helps maintain normal blood glucose level.

Composition

Nutritional information

1 capsule

| | |
|---|-----------------|
| Caffeine | 180 mg |
| Indian coleus extract including: forskolin (10%) | 100 mg 10 mg |
